Subject: Perrelli's Debt

I strongly believe as a tax paying resident of Richmond Hill that Councillor Perrelli is taking full advantage of us and should take ownership of his wrong doing as he knowingly spent this money and should be held accountable for this expense. Any regular employee of the City, in my opinion, would be fired and made to pay this back. Why should he be any different and this is not the first issue with Councillor Perrelli and let to get away with this, probably not the last.
