

The site plan illustrates the layout of Block 16, bounded by Yonge Street to the south and Lacewood Drive to the north. The plan is divided into several key areas:

- EXISTING HIGH DENSITY RESIDENTIAL:** Shaded in red, this area includes several large rectangular building footprints along the northern and central portions of the block.
- PROPOSED HIGH DENSITY RESIDENTIAL:** Shaded in blue, this area is located in the southern portion of the block, adjacent to Yonge Street. It includes a large rectangular building footprint and a smaller, more complex footprint to its north.
- EXISTING MITSUBISHI DEALERSHIP:** A large, irregularly shaped building footprint located in the western portion of the block, south of the existing high-density residential area.
- EXISTING CHURCH:** A small, rectangular building footprint located in the eastern portion of the block, south of the existing high-density residential area.
- EXISTING RESIDENTIAL:** A small, rectangular building footprint located in the eastern portion of the block, north of the existing church.
- EXISTING FIRE HYDRANT:** A small, circular symbol located in the western portion of the block, south of the Mitsubishi dealership.
- YONGE STREET:** The main thoroughfare running along the southern boundary of the block.
- LACEWOOD DR:** The main thoroughfare running along the northern boundary of the block.

The plan also shows various other features such as parking lots, landscaping, and utility lines. The overall layout suggests a mix of existing and proposed high-density residential development within the block.
