Subject: Opposition of proposed the land usage at 11300 Yonge ST

Hi

As a local resident at 116 Lacewood Dr, I do not like the proposed project at 11300 Yonge St will have negatively impact local resident daily life and makes our property less valuable.

First of all, those planned 8 to 10 storey bulky buildings could make us no more privacy at some point. Once those building come up ,it can poses the possibilities of overlooking existing properties,thus making privacy compromised on existing resident.

Secondly Those building can cause its neighbour loosing sunlight in their garden. Its building might overshadow some of those townhouse at its west side.

Last, new residents will flood the already densely population area, subsequently can cause more traffic congestions.

Thanks

Songpu Wu
