Subject: Bayview avenue condominium construction objection

Greetings,

I have been an OakRidges resident since 2001 and I would like to object condominium construction plans along Bayview avenue, especially in the wetlands area south of Bloomington.

I understand that the initial application has been amended and now reflects 8 storeys structure, but this will set the precedence for the future.

Moreover, current wetlands in Oakridges are is also an important natural habitat and any drying / resurfacing activities will likely have a negative impact on nearby St. George, Wilcox and Bond lakes.

Best regards,
Oleg Belogolovski
