Subject: condo application for 13572 and 13586 Bayview Ave, Richmond Hill

I submit my objection to the above proposed development which is contrary to the height and density permitted in the Richmond Hill Official Plan. Furthermore the land is situated adjacent to protected environmentally sensitive wetlands on the Oak Ridges Moraine. These wetlands are the natural habitats for many native species including the rare and threatened Jefferson Salamander, which is protected by the Oak Ridges Moraine Act 2001.

Regards
