Subject: Re: Objection to 13572 and 13586 Bayview Avenue Condo Development

Attention: Stephen Huycke, Simone Fiore and Members of Council,

I am writing in regards to the proposed condo development for 13572 and 13586 Bayview Avenue.

The proposed condo development at 8 stories tall would be a disaster for the Snively Reserve. It is against current height restrictions, as well as going against preserving a clean and environmentally safe Oak Ridges. The Snively Reserve sits on highly sensitive wetlands and is home to many different species, and migrant birds that would be greatly impacted by this massive building.

It would also be a disaster for traffic and safety in the area. I have spoken to many residents in our neighbourhood and they are all opposed to the development in its current form.

I urge all council members to vote against this proposed development and to continue to preserve our unique Oak Ridges environment.

Sincerely,

John Skenderis
80 Snively Street
