City File: ZBLA-22-0021

I am writing in support of the proposed zoning amendment to allow a site-specific exception that would permit the establishment of a specialized centre for children with Autism as submitted by Playlearn Preschool Inc. This centre would provide much needed specialized instruction for children so that they may reach their full potential and contribute to the community. This centre would also create job opportunities in Richmond Hill. As a resident of Richmond Hill for over 20 years, I fully support this zoning amendment.

Sandy
