Subject: DDOP Pickleball Hub

We wanted to join the many voices that are supporting the continuation of the construction of the DDOP Pickleball hub.

This hub is an important facility that will support the growing pickleball community in Richmond Hill. Currently, the courts available are only seasonal. Indoor facilities for year round play are required.

This game is unique - all ages, levels of fitness and skills can play. It fosters team work and a provides an additional avenue for socializing while being active. These are important for the development of younger people and the maintenance of older people. Dedicated facilities are instrumental in making this happen.

Please continue with the DDOP hub.

Respectfully,

Irv Klajman
