David Yee, 48 Hilts Drive, addressed Council regarding the Revised Development Proposal and Official Plan Amendment and Zoning By-law Amendment Applications submitted by Leslie Elgin Developments Inc. for 0 John Birchall Road. He advised of his concerns with the revised development proposal because of the proposed height and width of the apartment buildings and that a revised Shadow Study had not been undertaken. He further advised of his concerns with the amount of traffic that would result from the development, noting that the Traffic Studies were conducted during the pandemic and did not accurately reflect the volume of traffic in the area, specifically in light of the John Birchall Road extension now being open. D. Yee inquired about the above ground parking structure, and advised that in his opinion, the revised development proposal was not appropriate to accept for the area.

Xuan Wang, 7 Tyndall Avenue, submitted an application to appear as a delegation to address Council on this matter but was not in attendance.

Su Eng Tan, 18 Bawden Drive, addressed Council regarding the Revised Development Proposal and Official Plan Amendment and Zoning By-law Amendment Applications submitted by Leslie Elgin Developments Inc. for 0 John Birchall Road. She advised that she shared the same concerns as the first delegate; inquired what other structures were being proposed for the area; expressed concerns with the shadows that would result from the apartment buildings and the impact they would have on the neighbourhood; and requested that the greenspace, trees and ravine be

protected. S. Tan expressed concerns with the increased traffic, noting the opening of the John Birchall Road extension, as it was already a busy and dangerous intersection that was in close proximity to a school and library, and the impact the increased density would have on the area.

Michael Yiu, 44 Hilts Drive, addressed Council regarding the Revised Development Proposal and Official Plan Amendment and Zoning By-law Amendment Applications submitted by Leslie Elgin Developments Inc. for 0 John Birchall Road. He addressed the revised development proposal within the parameters of the North Leslie Secondary Plan, and expressed concerns related to how the neighbourhood would be able to accommodate the increased density and traffic, as well as address parking requirements, as the area was already congested. M. Yiu advised that many of the current residents that back onto the subject lands paid a premium for the lot, and would now be impacted by the height of the proposed apartment buildings and the shadows that would result.

Saeid Bokharaie, 107 Gerden Drive, addressed Council regarding the Revised Development Proposal and Official Plan Amendment and Zoning By-law Amendment Applications submitted by Leslie Elgin Developments Inc. for 0 John Birchall Road. He advised that he was in agreement with the concerns identified by the previous delegates specific to traffic congestion, safety of residents and height of the proposed apartment buildings, and questioned whether Environmental Studies had been conducted for the area to be considered when reviewing development proposals. S. Bokharaie inquired if City staff and Members of Council had visited the subject lands to witness the traffic congestion and safety concerns firsthand, especially in light of the opening of the John Birchall Road extension, and advised that he understood the need for additional housing but other more appropriate properties for high-rise apartment buildings should be considered.

Feng Cen, 109 Bawden Drive, addressed Council regarding the Revised Development Proposal and Official Plan Amendment and Zoning By-law Amendment Applications submitted by Leslie Elgin Developments Inc. for 0 John Birchall Road. She noted that her neighbours already presented the reasons why they did not want two apartment buildings built on the subject lands, and advised that she was in agreement with the comments made by the previous delegates.

Moyez Lalani, 42 Hilts Drive, addressed Council regarding the Revised Development Proposal and Official Plan Amendment and Zoning By-law

Amendment Applications submitted by Leslie Elgin Developments Inc. for 0 John Birchall Road. He advised that he and neighbourhood residents were not happy with the revised development proposal and were not in agreement with the reasons identified in the staff report to recommend approval, and expressed his concerns with the proposed height and width of the apartment buildings that would result in shadows, the removal of 200 units to add affordable housing units, proposed density, and parking garage. M. Lalani noted that the Traffic Studies were conducted during the pandemic and did not accurately reflect the volume of traffic in the area, specifically in light of the John Birchall Road extension now being open, and displayed diagrams to demonstrate how the proposed revised development plan would not fit with the existing neighbourhood, as further described in his correspondence distributed as part of Item 15.4.

Sean Xiao, 53 Bawden Drive, submitted an application to appear as a delegation to address Council on this matter but was not in attendance.

Jade Wang, 5 Seager Street, submitted an application to appear as a delegation to address Council on this matter but was not in attendance.

Joy Wang, 14 Seager Street, addressed Council regarding the Revised Development Proposal and Official Plan Amendment and Zoning By-law Amendment Applications submitted by Leslie Elgin Developments Inc. for 0 John Birchall Road. She advised that she shared the same concerns as her neighbours regarding the proposed revised development plan, addressed the proposal in relation to the North Leslie Secondary Plan specific to the maximum height and density, and stressed the importance of having the necessary resources and infrastructure in place to support intensification. J. Wang expressed her concerns regarding the accuracy of the computer generated alternative concept plans, lack of technical review for the revised development proposal and appropriateness of the proposal on the subject lands, and requested that a full technical review be undertaken.

Lincoln Lo, Malone Given Parsons Ltd., agent for the applicant, addressed Council regarding the Revised Development Proposal and Official Plan Amendment and Zoning By-law Amendment Applications submitted by Leslie Elgin Developments Inc. for 0 John Birchall Road. He thanked Members of Council and City staff for allowing for continued dialogue with the applicant team which has resulted in a project that in his opinion, represented good planning, and advised that he was in agreement with the information and recommendations contained in the staff report being

considered today which addressed the various concerns that had been identified. He discussed the built form being proposed in relation to other developments in the North Leslie Secondary Plan area; reiterated that the subject lands were buffered from the existing community, included greenspace, and were within the angular plane limits; confirmed there was not an 8-storey parking garage within the proposal and provided additional information related to parking; and noted that there were no dwelling units abutting the proposed development. L. Lo concluded his delegation by addressing comments related to the watercourse and natural heritage features, advising that the entire site was developable, all environmental studies had been completed, and requested that Council support staff's recommendations.

Ayaz Abdullah, 52 Hilts Drive, submitted an application to appear as a delegation to address Council on this matter but was not in attendance.

Junhua Zhang, 37 Gerden Drive, addressed Council regarding the Revised Development Proposal and Official Plan Amendment and Zoning By-law Amendment Applications submitted by Leslie Elgin Developments Inc. for 0 John Birchall Road. He advised that he had similar concerns as his neighbours with the proposed revised development proposal including the impact on traffic congestion, specifically in light of the John Birchall Road extension now being open, as well as parking concerns in the area. J. Zhang noted that there were not enough amenities in the area to support the existing residents, voiced his concerns regarding the shadows that would result from the development and impact those households that use solar panels for energy, the negative impact on the environment, and lack of studies that were completed, and requested that further discussion take place with the community.
