Subject: City File OPA-23-0009

City of Richmond Hill,

My family strongly feels that the City of Richmond Hill should not allow the change to increase density for Lot 1, Registered Plan 200 (13572 & 13586 Bayview). We actually feel that most natural lands in Oak Ridges should not be developed at all to help conserve the environment. Don't help developers pocket more money and increase population density by modifying existing rules / limitations on development.

Please notify us of the results of this proposed official plan amendment.

Thanks,

Terakita Family
