Subject: Petition to Oppose - City Files: D01-20008 and D02-20014

Hi there,

Please see the attached list of signatures from a petition to oppose the city files D01-20008 and D02-20014 to build a 7-story building at Bayview Ave and Cartier Cres.

Here is the petition link for your reference :

Please note that this petition was started less than 5 days ago, with a weekend included, and it has garnered over 125 signatures and is continuing as I download it to meet the deadline of providing comments by 12pm today. Given the tight timeline the Notice of Committee of the Whole Meeting, this amount of signatures reflects a strong opposition to the development of a 7-story building.

You may see some addresses from outside of Richmond Hill, it is likely because this development is affecting their family that is living in the neighborhood, their community, or their property while they are overseas as residents of Ontario and Canadian citizens.

Thank you for your consideration,

Elizabeth Wan and King Chan
