6.7 SRPBS.24.040 - 2024 Heritage Grant Applications - 7 Properties

Committee members acknowledged the benefits of having a Heritage Grant Program in place to provide financial assistance to the owners of heritage properties, and discussed if it was a possibility for Council in the future to review the matching grant of up to 50% of a project cost to a maximum of \$5,000 per year so that it could be increased to further assist homeowners.

Inquiries were made regarding what advertising was done to inform the residents of Richmond Hill about the Heritage Grant Program, if the grant money could become a tax-free benefit, and if staff monitored from the City's perspective the renovations after a heritage permit or heritage grant was approved. Staff reviewed for Committee members how heritage property owners were notified about the Heritage Grant Program noting that information was available on the City's website under Cultural Heritage, suggested that follow up could be made with Finance staff to

determine if the grant money could become a tax-free benefit, and explained how the renovation process was overseen and monitored from a staff perspective.

Clarification was requested regarding the Heritage Permit Application and the Heritage Grant Application and what requirements and processes were in place for each type of application. Staff confirmed that the Heritage Permit Application and Heritage Grant Application were currently two separate processes, and provided additional details regarding how the processes worked and how a homeowner could go about getting assistance for their heritage property. General discussion ensued regarding the possibility of these two application processes being combined in the future to make it more efficient and easier for the homeowner.
