Re: 9861 Yonge Development

To the Members of Council,

I'm writing to you because I'm very concerned about the impact the development will have on the traffic in our neighborhood.

We have a lot of traffic now and it will only increase with the Metroview development now in progress being built at Yonge and Harding. There's another Metroview development at Yonge and Elwood that has been approved. The traffic from these two developments alone will have a significant impact on Church Street without the proposed 9861 Yonge St development.

In a perfect world drivers would be considerate of others, but I have noticed this is not the case. Drivers are speeding and don't show the respect or patience, for pedestrians or residents.

I'm asking for you, the Council, to show respect and concern for the safety and wellbeing of our residents by supporting the official plan.

Thank you for your Consideration on this matter.

Regards,

Martha Forge
