Subject: Register my vote against the Snively Wetland Condo Expansion

This developer has once again asked for a change and wants to change his plans and make this development into a 10 storey building. The limit in Oak Ridges is supposed to be 4 stories.

This is not in keeping with the Oak Ridges Moraine in its height, density and the proximity to the Snively wetland as well as potential flooding risks for older homes.

There is no transit in this area which means more cars and more pollution and more traffic in that sensitive area.

Please as council, block this request.
