Subject: OPA-23-0001 AND ZBLA-23-0002 107 Hall Street

To whom it may concern,

I am writing to express my strong objection to the proposed change of zoning in our town, 107 Hall Street. As a resident of this community, Mill Walk Court, Richmond Hill, I am deeply concerned about the potential impact of this change on our neighborhood.

The proposed zoning change would allow for the construction of a high-density housing development on a parcel of land currently zoned for single-family homes. This development would not only increase traffic and noise in our already congested neighborhood but also change the character of our community.

I believe that this proposed zoning change is not in the best interests of our community, and I urge you to reject it. Our neighborhood is already struggling with issues such as traffic, overcrowding, and environmental degradation. This proposed development would only exacerbate these problems.

I appreciate your consideration of my objections and urge you to take them into account when making your decision on this matter.

Sincerely,

Davar Sepehri
