Subject: Concern about development on Hall Street

I live in Richmond Hill very close to the proposed development on 107 Hall Street.

I am concerned about the neighbourhood being able to sustain that many new cars and people.

The traffic implications alone will be awful as well as the impact on sun shade and wind on the area.

Please take my concerns into consideration.

We have a wonderful neighbourhood but this development would turn it into a developed congested area

Thank. you

Carolyn Burke
