Subject: Note of opposition

City of Richmond Hill planning department, Carol Davidson Ward 1 ,

It has come to my attention that the city is looking at the parcel of land at the corner of Longworth and Leslie, north of Stouffville Road to now have two four storey buildings. This, in my opinion, is too high for this area. If it must be residential, I support a more modest approach of three stories to support the area. More importantly, this area should be planned as a plaza to support the families. This is a growing area, in need of essential convenience shopping. This approach will hopefully put less of a strain on the areas fragile environment.

Your council's decision will set a prescient for the city in moving forward. Please keep our community in Ward 1 and our environment in your uppermost thoughts as you deliberate this amendment.

Thank you for reading this.

Sincerely,

Nancy Chambers
