Subject: In opposition to the proposal of OPA-24-0003 & ZBLA-24-0005

Hi City of Richmond Hill,

I'm writing to express my concerns of proposed changes of land zoning described as Block 68, Plan 65M-4696 to a dense 201 residential apartment dwelling units neighborhood in the location of Leslie St. & Longworth Ave.

We don't want dense residential neighborhoods that why we bought the house in Oak Ridge Meadows 4 yrs ago. At that time the proposed zoning of Block 68 was purely commercial.

Should we have known that there would be a residential apartment dwelling of multiple units in future, we would have had not purchased a house in this neighborhood.

Dense residential brings in congested traffic, noise neighborhood & increases in crime rates & air pollution.

We don't want that happening in this community!

We need park & walking trails in our community! Please speed up building a park to our community so people can have a place to hang out after dinner or early morning & not walking in an area where full of construction debris & dust!

Me & my family are strongly **opposed** to change the Block 68 zoning to build a multi dense residential apartment dwelling ! Pure Commercial or park is fine !

Regards
