Subject: Notice of Complete Applications (City Files ZBLA-25-0011 and SUB-25-0003)

Hello,

I would appreciate knowing about any public meeting associated with this application as the intended properties back on to my home at 64 Baynards Lane.

I am requesting that the trees growing along the property line can remain during and after construction.

There are trees currently marked with a red X, which I assume are meant to be cut down. I would appreciate it if they could remain.

I would also appreciate a response with some direction of what I can do regarding the trees and to be notified of any public meeting related this application.

Thank you,

Paola
