Subject: Highgrove Crescent Parking Restrictions Proposal

Good day,

In regards to the Highgrove Crescent parking restrictions proposal that is on the agenda for the November 26 council meeting, I would like to propose an amendment to have the parking restrictions changed to include the west end of the crescent on the north/south portion only.

I met with councillor Simon Cui and we discussed that the issue seems to be isolated to the above mentioned area, which is adjacent to Rumble Pond Park. Parking restrictions to the entire crescent are not necessary as the issue seems to be isolated to the above mentioned section.

We discussed that the restrictions should be on both sides of the street for the overnight period from 9:00 PM to 6:00AM. This would continue to allow parking throughout the day for residents and park users and restrict parking after dark for other vehicles and questionable activity within the park and surrounding road allowance.

Thank you for your consideration in this matter.

Thank you,

Stephen Tolley
